JAINAM JAIN

Full Stack & GenAI Developer | B.Tech IT, **CGPA 9.92 / 10**

Mumbai, India • Open to remote • +91 79779 63474 • jainamjain1116@gmail.com • github.com/jain44 • LinkedIn • Portfolio

PROFILE

Third-year B.Tech IT student at TCET building full-stack and LLM-powered products in React, Next.js, Node.js, and Python. Experience as a Full Stack Web Developer and API Web Developer. Top-20 finisher among 1,200+ at ELEVATE 2026; team leader at ISRO's Bharatiya Antariksh Hackathon.

EDUCATION

B.Tech – Information Technology, CGPA 9.92 / 10 — Thakur College of Engineering and Technology *2024 – 2028*

Minor Degree – Artificial Intelligence (Specialization) — Thakur College of Engineering and Technology *2026 – 2028*

Class XII (Science) — Nirmala Memorial Foundation College, Mumbai *2024*

Class X (ICSE) — LR & SM Vissanji Academy, Mumbai *2022*

EXPERIENCE

Full Stack Web Developer — Shreshth Sugamaya Governance LLP, Mumbai *Aug 2026 – Oct 2026*

- Built a web-based Business Management Software (React.js, Node.js, Express.js, MongoDB) unifying sales, purchase, inventory, manufacturing, and service operations on a centralized database, with role-based access and Excel/PDF reporting.
- Developed a responsive, mobile-first, SEO-ready corporate website with a validated enquiry form.

API Web Developer — JP IT Staffing LLC *Jul 2026 – Oct 2026*

- Built an end-to-end recruiter outreach automation system (Python, Selenium, Gmail API, Pandas) with deduplication and sent-logs, delivering 2,800+ emails across 2 candidate profiles.
- Integrated the OpenAI API to score leads against job descriptions (693 scored; 215 high-priority at 75+/100) and customize resumes per role with automated PDF generation.

Full Stack Engineer Intern — ApexPlanet Software Pvt Ltd (Remote) *Jul 2026 – Sep 2026*

- Developed and maintained full-stack web applications, building frontend interfaces integrated with backend APIs and database schemas.
- Worked in an agile team on server-side logic, routing, and debugging workflows.

Full Stack Intern — The Developers Arena (Remote) *Jul 2026 – Sep 2026*

- Built end-to-end web applications with HTML/CSS, JavaScript, and modern frameworks, with responsive frontends integrated with REST APIs.
- Submitted projects evaluated on code quality, scalability, and adherence to industry best practices.

Design Director — TCET ACM Student Chapter, Mumbai *Jun 2025 – Jun 2026*

- Led the design team producing event posters, branding materials, and social media creatives for Mumbai's largest student tech chapter.
- Core committee member in a year when the chapter earned an Honourable Mention at the ACM India Outstanding Chapter Website Awards 2025 and hosted INNOVGENIUS 2026, a national ideathon with 770+ participants.

Graphic Design Intern — Shreshth Sugamaya Governance LLP, Mumbai *Nov 2025 – Jul 2026*

- Designed digital creatives and social media graphics for organizational branding and outreach.

PROJECTS

JusticeAI — multilingual legal co-pilot [Node.js, Express, Groq Llama 3.3, Firebase, Vercel, PWA] | Live demo

- Built a multilingual (English, Hindi, Marathi) app turning text, voice, or FIR photos into formal complaints and RTI applications, with relevant laws and timelines.
- Serverless Node/Express backend on Vercel with Groq Llama models, JSON validation, and rate limiting; Firebase Auth and Firestore sync case history across devices.
- Installable PWA with PDF download, read-aloud, and WhatsApp sharing, plus a context-aware chatbot for follow-up questions on each case.

Kavach (Sentinel) — MSME early-warning default prediction, IDBI Innovate 2026 [React, TypeScript, FastAPI, PostgreSQL, XGBoost, SHAP, Docker] | Live demo

- Built an XGBoost default-risk scorer with isotonic calibration and SHAP reason codes (AUC-ROC 0.743; 38.9% precision at top 10%; synthetic data).
- FastAPI + PostgreSQL backend and React dashboard with portfolio heatmap, what-if stress simulator, JWT role-based access, and model governance.
- Added fairness parity tracking, calibrator drift monitoring, audited user management, and a Docker Compose deployment.

Financial Crime Investigation Agent — SIH PS-2 [LangGraph, FastAPI, React, NetworkX, Python ML] | GitHub

- Built an explainable, human-in-the-loop system: an ML detector flags suspicious transactions and a LangGraph agent gathers evidence via 4 tools (transactions, KYC, linked accounts, complaints).
- Risk score comes from ML and deterministic signals, not the LLM; NetworkX link analysis and an audit trail yield a report recommending Escalate / Human Review / Close for the analyst.

GrowthOS — AI growth operating system for e-commerce brands [Next.js 15, TypeScript, Prisma, Supabase, Auth.js, Groq Llama 3.3] | GitHub

- Built a SaaS where 7 parallel AI agents (finance, marketing, operations, tech, unit economics, inventory, retention) produce one unified diagnosis for D2C brands.
- Auth.js (credentials + Google OAuth), onboarding wizard, KPI dashboard, strategy simulator, history charts, and PDF executive reports.

Samyak — Jain spiritual learning platform [Next.js, React 19, TypeScript, Supabase, Tailwind CSS] | GitHub

- Built a learning app with daily concepts, 24 Tirthankara profiles, stories, quizzes, an AI chat assistant, and Supabase-backed login.

SKILLS & CERTIFICATIONS

Languages: JavaScript, TypeScript, Python, SQL

Web Development: React.js, Next.js, Node.js, Express.js, FastAPI, HTML/CSS, REST APIs

AI / Automation: OpenAI API, Groq, LLM API Integration, LangGraph, Prompt Engineering, Selenium, Gmail API, Pandas

Databases & Tools: MongoDB, PostgreSQL, Prisma, Firebase, Supabase, Docker, Git, Figma

Design: Figma, Adobe Illustrator, Canva

Certifications: IBM Data Analytics, Data Vision Boot Camp, AI for Entrepreneurs (Data Analysis), Python 101 for Data Science, Google Analytics, Spoken Tutorial Project (IIT Bombay)

HACKATHONS, ACHIEVEMENTS & LEADERSHIP

- **18th of 1,200+ participants** — ELEVATE 2026 (Ideakode), 24-hour online hackathon, solo
- **26th of 1,300+ participants** — Frontend Wars 2026 (Frontend Arena); cleared the Qualifier and competed in the Finals
- **Team Leader** — Bharatiya Antariksh Hackathon 2026 (ISRO, powered by Hack2skill)
- **Offline Round finalist** — Saavishkar 2026 (MPSTME, SVKM's NMIMS); presented JusticeAI in person
- **Round 2 (top ~400 teams)** — Adobe University Hackathon 2026, out of 3,00,000+ registrations
- **Interview Round** — DevFusion 3.0 (Enginow × IIT Bombay), after the Aptitude, Project Submission, and Hackathon rounds
- **Selected at college level** — Smart India Hackathon 2026 Internal Hackathon
- **Participant** — QuizOff 2026, India's Biggest AI Quiz (5,25,000+ students); School2Startup × Matiks League
- **Ranked 19th Nationally** — National Level Mathematics Olympiad (NLMO) | **6th Position** — Data Vision Competition
- Presented Research Paper at Multicon 2026
- Internshala Student Partner; volunteer, Ek Ped Maa Ke Naam 2026 Tree Plantation Drive (TCET ACM SIGITE)
- Represented Maharashtra at National Level in Handball
